Gotzone Sagardui

12.40-13.00
Q and A

EUROPEAN UNION
European Social Fund

Federal Ministry of Labour and Social Affairs

TLN Mobility

ESF European Social Fund for Germany

1. Background

Good practice: IdA 'Integration through Exchange' programme in Germany (2007-2013 ESF funding period): approx. 16.000 programme participants, 290 host organisation, 26 countries

Weaknesses of transnational cooperation in the 2007-13 programming period:

- lack of institutionalised coordination
- project operators found it hard to identify TNC partners in other MS
- expenditure for preparation of transnational projects generally not eligible in MS

Idea for TLN Mobility:

Starting from the EU regulations, MS and Regions (Managing Authorities) share a common framework for mobility and -within the context of an agreed timetable - launch calls national / regional programs aimed at professionals responsible for the management of operations.

TLN Mobility

ESF European Social Fund for Germany

2. More Background

Strategic aims:

➢Integrating disadvantaged young people and young adults in the world of work by improving their skills, knowledge and expertise through work-related learning experiences abroad

➢Encourage transnational cooperation ESF through the creation of a reference model of coordinated action at national / regional level.

4. Specific Objectives of TLN Mobility

Specific Objective 1: Preparation of a coordinated call on transnational mobility measures for youth and young adults

Develop timetable for coordinated and national/regional action	Define common minimum requirements for coordinated call. Key areas: target group, quality, financial rules; implementation structures

Specific Objective 2: Launch of a coordinated call on transnational level

Publish coordinated call (based on common minimum requirements) on TLN Mobility webpage	Organize transnational conference to share results and increase participation in call

Specific Objective 3: Support for launch of individual calls on national/regional level

Define and implement specific support measures which MS/Regions (may) request	Set up partner search database and organize partner search forum
