BAZA PARTNERÓW PONADNARODOWYCH
TRANSNATIONAL PARTNER DATABASE

WHAT IS IT ABOUT?

- Database (DB) composed of **PROJECT FICHES** (short descriptions of a project)
- Concise information on TNC assumptions – ESF themes, target groups, problems to be solved, objectives, activities & outputs of TNC.
- Fiches divided in the categories such as: Labour market, Social inclusion, SME, Education...

PURPOSE

- To design a first-step, simple tool for Polish entities searching TNC partners
- To find a partner on the basis of a concrete project's assumptions
- To help project promoters to search for potential TNC partners in advance (before a call for proposals is launched)

WHO IS INVOLVED?

- Overall responsibility of National Supporting Institution in charge of DB's elaboration, financing and administration.
- The NSI's Co-operates at regional, national and transnational level

WHY IS IT NEEDED?

- to support partner search process within ESF
- existing DBs not fully relevant to needs

FOR WHOM IT IS?

- For Polish entities willing to find a transnational partner and foreign institutions interested in collaboration with Polish organizations
- Free access = open to everybody

WHAT ARE THE BENEFITS?

- easy first screening of potential partners at hand, without moving from home (no costs);
- trust – most of the Project Fiche are collected for Transnational Partner Forums – checked by the NSI & Partner Countries during pre-selection of projects
- open for all for free
- regularly updated (every three months).

Fishing Pool = a first step towards finding TNC Partner!!! www.kiw-pokl.org.pl
