Active Euromobility

ESF-project within the call “NEET:s mobility”

**Target group** 18-29 years old

1st of October 2018 – 30th of September 2021

**TCA** together with two transnational partners
- common sending and hosting of participants
- Six common workshops for staff, to develop our methods for mobility
Active Euromobility

Analysis- and planning phase
1st of October 2018 - 30th of April 2019

• Specified the objectives of the project, activities and how to measure the fulfillment of the objectives

• A plan for how to integrate the horizontal principles in all different parts of the project

• A plan for the external evaluation
Active Euromobility

Analysis- and planning phase

Specific themes
- democracy and human rights.
- personal health for all participants.

Extended future phase

Three workshops for staff
- compare our methods for mobility
- identify differences and similarities
Active Euromobility

Implementation phase

- Sending and hosting of participants between the transnational partners

- External evaluation of in what way the differences between the methods affects the participants in order to develop our methods

- Three more workshops for staff of the transnational partners, common learning, method development by implementing new parts into our methods
Active Euromobility

Termination phase
- make conclusions, learning outcomes
- dissemination conference
- final report to ESF

Expected results:
- the methods of the partners will be developed
- the methods more adjusted to our target groups
Active Euromobility
